INTRODUCTION

In 2006, the federal Centers for Medicare and Medicaid Services (CMS) awarded a Systems Transformation Grant to Virginia designed to make significant improvements to the infrastructure of the service delivery system for individuals with developmental and other disabilities. One goal (Goal 4) of this grant has been a joint project under the leadership of the Department of Behavioral Health and Developmental Services (DBHDS) and the Department of Medical Assistance Services (DMAS). The goal has focused on the use of integrated systems to monitor critical incident reporting across the service delivery spectrum and to automate and manage specific functions of the ID (Intellectual Disability) and DS (Day Support) Waivers.

The Intellectual Disability On-Line System (IDOLS) is laid out similarly to the existing paper system. The electronic system is entered through a web portal on the DBHDS web site. None of the regulations or process flow for information has been changed, just moved into an electronic format. A person may only be placed on the statewide waiting list by meeting the current criteria.

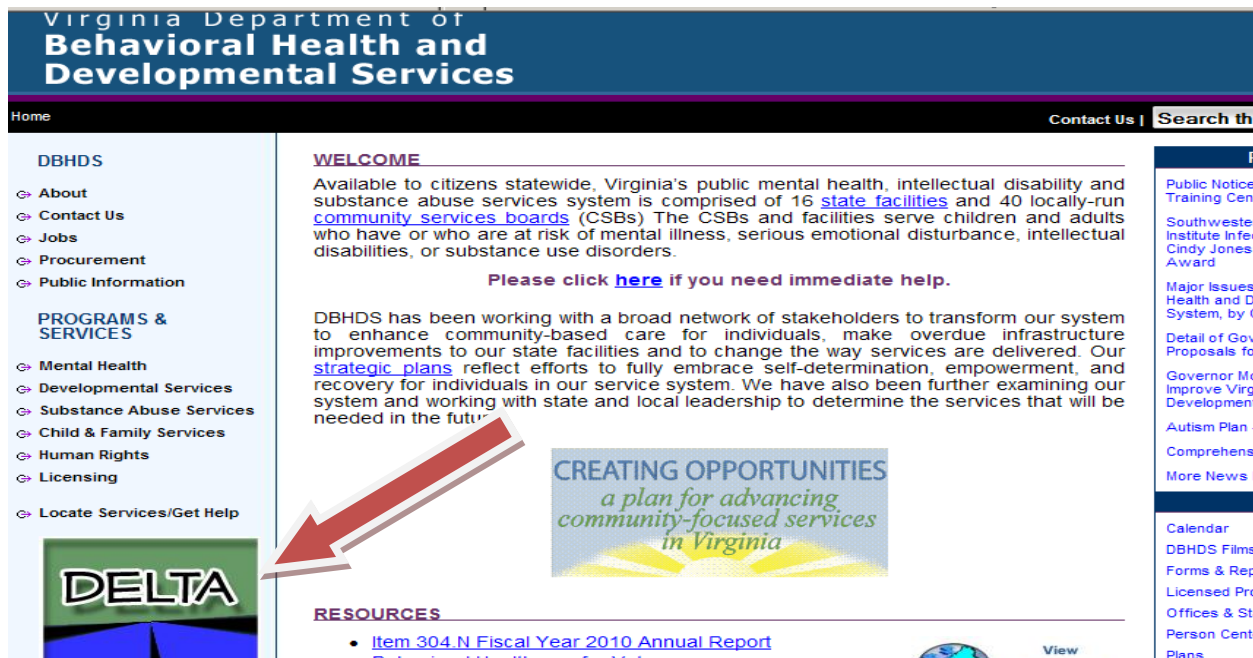

Slots continue to be assigned by the CSB through the process described in the MR/ID Community Services manual. Once assigned, acceptance and slot assignment is entered into the system, and enrollment is processed in IDOLS electronically.

The electronic submission of ISARs has been deployed as Phase 2. The Service Authorization section of IDOLS follows the currently used paper forms for all 44 types of service requests. The paper system will remain in place throughout the phase-in period (90 days following the commencement of initial training) and will be **temporarily** used in the event of an emergency when the IDOLS system is unavailable.

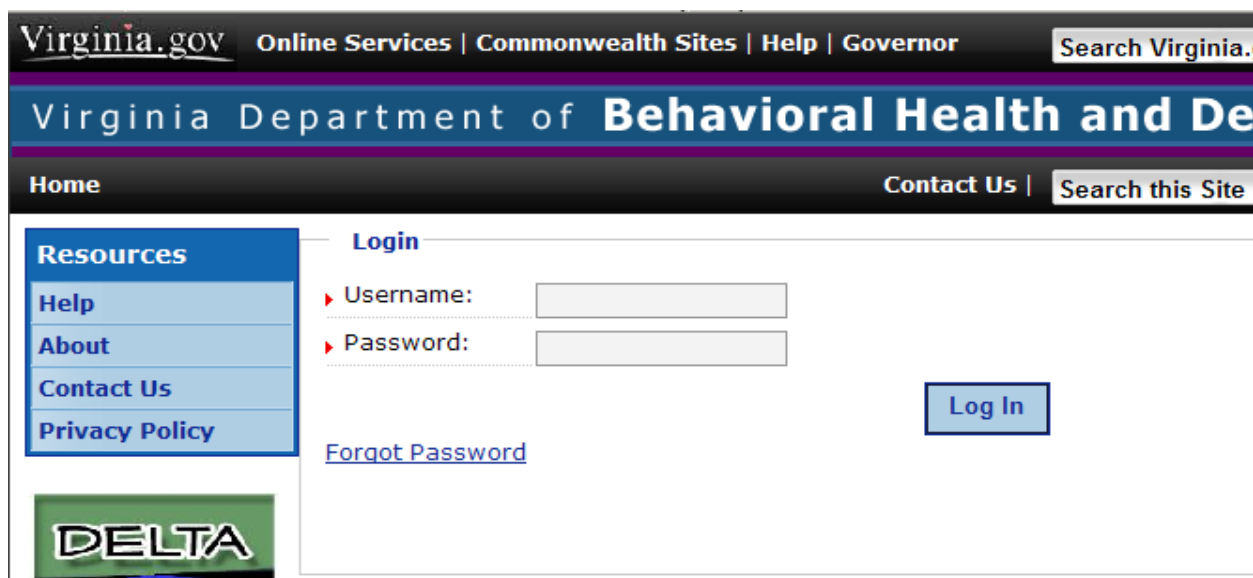

Training resources for the Service Authorization component (Phase 2) of IDOLS are designed for use concurrently with both the Service Authorization Resource Manual and the On-line Service Authorization Video Training. These resources are found on the www.dbhds.virginia.gov web site under the Office of Developmental Services web page listing for IDOLS Service Authorization Manual.

ACCESSING THE DELTA URL

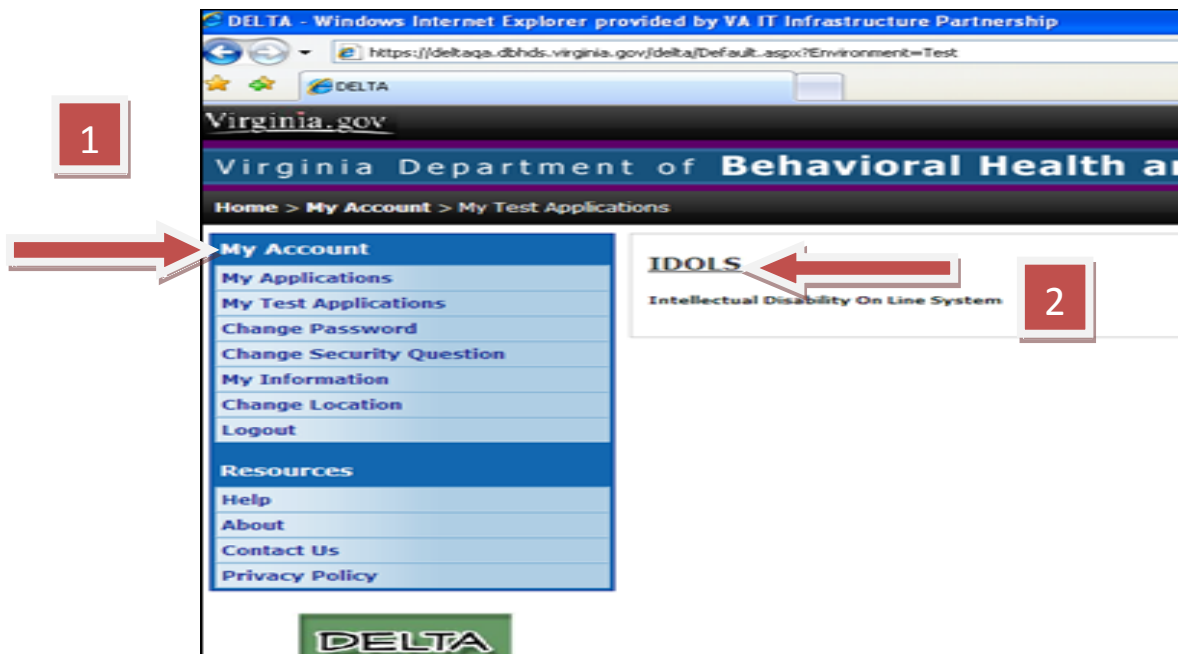

Once you have established a DELTA account, the Delta Portal can be accessed through the link in the email <https://delta.dbhds.virginia.gov> or from the main page of www.dbhds.virginia.gov. Just click on the DELTA logo in the lower left column of the main page as seen below. Please be sure to save it into your "Favorites" in the tool bar at the top of the web browser.

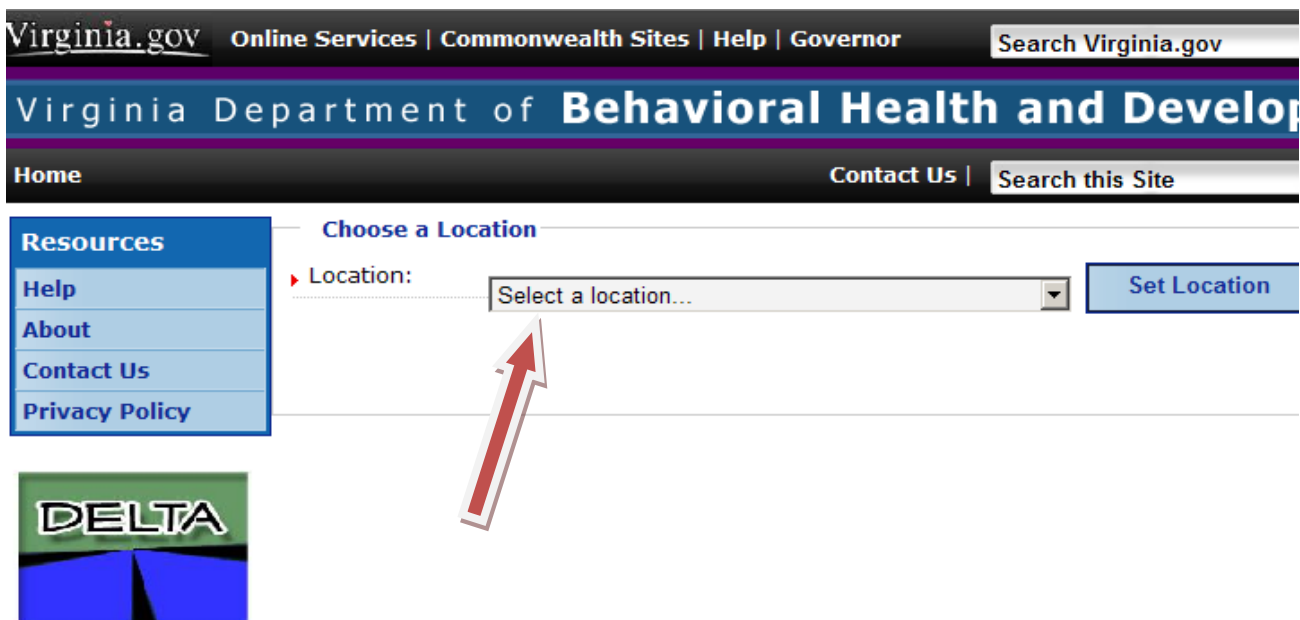

Below is the DELTA Login Screen for authorized users. Enter your Username and Password. Users will be required to change their passwords about every 60 days and the password cannot be repeated for the first 12 uses. After 3 unsuccessful tries you will be locked out and your agency's DELTA Security Officer will have to reset your password.

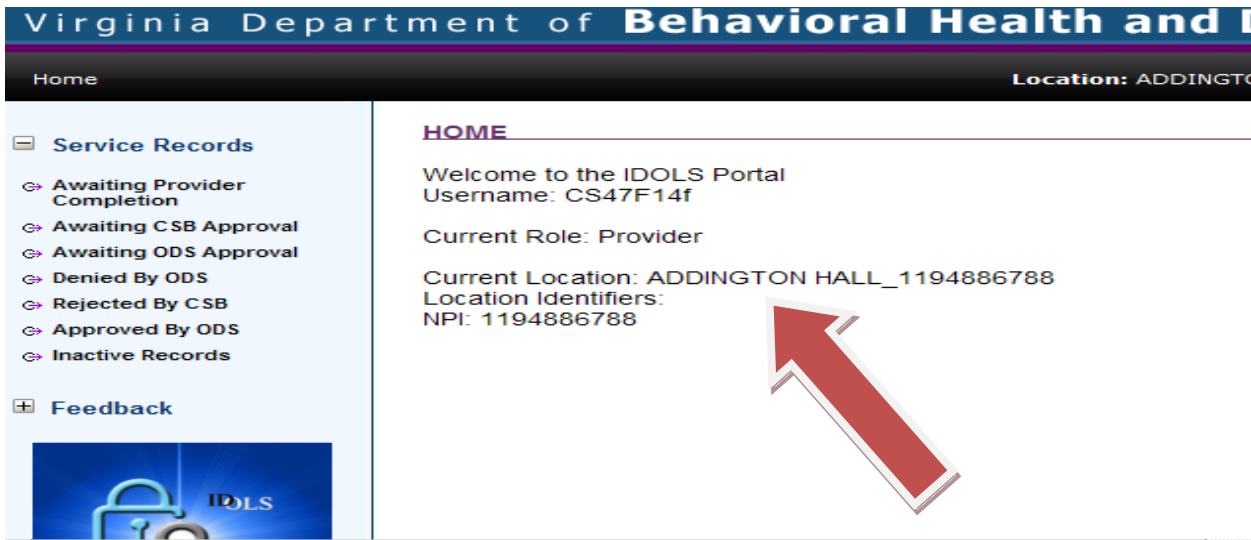

Once entry into DELTA is successful, select “My Applications” in the left hand column to access the link to the IDOLS application (see 1 and 2).

The IDOLS link will take you to the “Choose a Location” screen where you will be able to select your location. Providers will only have one location per provider number. CSBs/BHAs may have 2 choices: one for the CSB submitter/approver role (for support coordinators), which is the name of the CSB only, and the second if the CSB is a Waiver services provider, which has the CSB name followed by a provider number. See the “CSB Service Authorization Requests” section below.

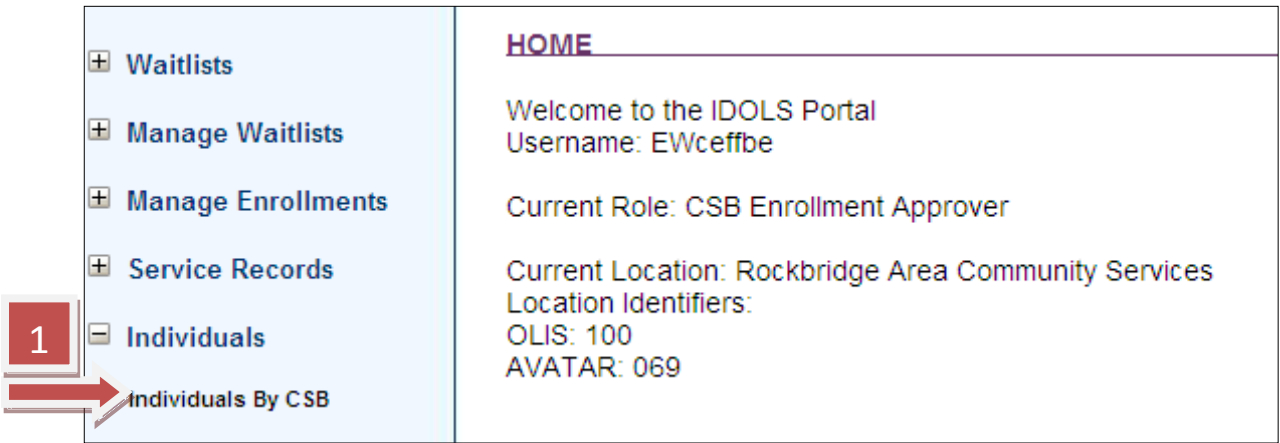

The IDOLS link will then take you to the home screen, where you will be able to view your username, role and location. Be sure to check your login information as seen below to assure it is correct.

CSB/BHA SERVICE AUTHORIZATION- STEP ONE

Initially, the CSB enrolls an individual in the ID/DS Waivers into a “Projected” status. Once the actual start date of services is known, the individual’s status is updated to “Active.” This will occur after the meeting when the individual or family selects a provider and notifies the Support Coordinator. The first step in Service Authorization is for the CSB/BHA to assign in IDOLS the chosen service and provider to an individual. This will allow the selected provider to access the individual’s record. See below.

The CSB Submitter locates the enrolled individual in the IDOLS system and accesses the service screen (see 1 and 2 below): The individual can be found in either of two views shown in 1 and 1a.

Notes

New Note:

Once selected, there will be notifications sent to the provider and to the CSB, indicating that a Service Authorization Request has been activated. An email notification will be sent to the provider indicating the service record has been assigned (see sample notice below - image 7).

Dear Provider Name_1194886788,

A service record has been assigned to you by HAMPTON-NN CSB in the DBHDS IDOLS and is awaiting your review.

Please log into DELTA and access the "Awaiting Provider Completion" section of the IDOLS application.

Please do not reply to this email, this is a system generated notification.

7

COMPLETING A SERVICE AUTHORIZATION REQUEST - STEP TWO

A Service Authorization request cannot be submitted until the services have been assigned in IDOLS to the provider by the CSB/BHA as seen in Step 1. Following the email notice of this event, the provider can go to the IDOLS web site, either through the link in the email or through the DBHDS website (DELTA portal to IDOLS) and select the view "Awaiting Provider Completion."

From here, the provider locates the individual and the Service Authorization needing completion (see 1 and 2 below).

SERVICE RECORD - AWAITING PROVIDER COMPLETION

Status

Service record submitted successfully.

Continue

If there is more than one person designated by your agency to complete ISARs, be careful to select **ONLY** the Service Authorizations assigned to **you** by your agency. Everyone in the agency who has been assigned the “Provider” user role will see all the ISARs awaiting completion. The other person(s) will also select the Service Authorizations assigned to them to complete. The electronic form that appears when you hit the “select” button should be very much like the paper form currently used for that service. Please note that while the example above is for a residential service, each service has its own set of criteria within the IDOLS system.

PROVIDERS ATTACHING JUSTIFICATIONS/ITEMS TO A SERVICE AUTHORIZATION REQUEST

If it is necessary to attach additional information, such as a price quote for Environmental Modifications, a doctor’s order for Skilled Nursing, substantiation of hours for Residential Supports (required when requesting 5 or more hours per night of overnight safety supports), or other information for a service which requires additional justification for any reason, this can be done under each service. Go to the Justification/Substantiation section of the form, select “browse,” find the scanned document or typed document in your own computer and then select “open.” The document should appear in the box next to browse. **If sending several items, they must be copied into one document using copy/paste.** The system will only permit one document to be attached to each service authorization request. If you get an error when you select “approve request,” it will be necessary to re-attach the document before you submit (Approve the Request) again (see images 5a and 5b below).

An alternative to attaching/scanning in justifications is to fax them, although electronic submission is strongly encouraged. Ensure that all pages are clearly marked with the individual’s identifying

information before you fax them. In IDOLS click on “sent via fax” to inform the Service Authorization Consultant that they will need to look for the information on the fax machine. See the fax check box below under 5b.

A NOTE ABOUT CSB SERVICE AUTHORIZATION REQUESTS

If CSB staff members are assigned both “Enrollment Approver” (CSB Name Only) and “Provider” (CSB Name_ #####) roles in IDOLS, the CSB name with the provider number must be selected in order to complete the ISAR (provider role). The “Enrollment Approver” or “Submitter” roles cannot complete a Service Authorization Request (ISAR).

SERVICE AUTHORIZATION REQUEST: CSB APPROVAL/REJECTION - STEP THREE

When the provider completes the Service Authorization request, it is sent to the CSB for approval. An email will be sent to the CSB staff that a service record (ISAR) has been completed. The provider's name will appear in the email. See example of email (image 1 below).

1

Dear CSB Staff,

A service record has been completed by ADDINGTON HALL_1194886788 in the DBHDS IDOLS and is awaiting your review.

Please log into DELTA and access the "Awaiting CSB Approval" section of the IDOLS application.

Please do not reply to this email, this is a system generated notification.

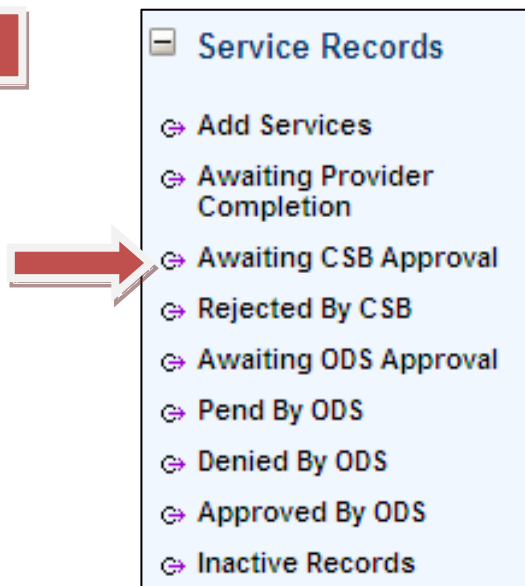

<http://delta.dbhds.virginia.gov>

IDOLS is a trademark of DBHDS. - Copyright © 2009-2011 - All rights reserved

****NOTE: If you do not wish to receive email notifications, you can utilize the email filters in Outlook or your email system to "Block Sender."**

The Service Authorization Request (ISAR) will appear in the "Awaiting CSB Approval" view for both the provider and the CSB. The record remains in the "Awaiting CSB Approval" view until acted upon (the CSB locates the completed request (see image 2) and reviews prior to submission to ODS (see image 3)).

2

SERVICE RECORDS AWAITING CSB APPROVAL - (4 TOTAL RECORDS)											
Filter By Case Manager: <input type="text" value="Select one..."/>			<input type="button" value="Filter"/>		<input type="button" value="Reset"/>

Reject Request

Delete Request

The final action a CSB Approver can take is to completely delete the request from the IDOLS system; this should **only** be selected when a submission is made in error or at the provider’s request. Once deleted, the request cannot be retrieved (7 above).

When the CSB approves or rejects the Service Authorization Request, an email is sent back to the provider. If it has been “rejected,” the provider will get the email similar to this example and must go to the “Rejected by CSB” view to retrieve it (images 8 and 9 below).

8

Dear ADDINGTON HALL_1194886788,

A service record has been rejected by HAMPTON-NN CSB in the DBHDS IDOLS and is awaiting your review.

Please log into DELTA and access the "Rejected by CSB" section of the IDOLS application.

Please do not reply to this email, this is a system generated notification.

<http://delta.dbhds.virginia.gov>

IDOLS is a trademark of DBHDS. - Copyright © 2009-2011 - All rights reserved.

The service record (ISAR) will appear in the “Rejected by CSB” view for both the provider and the CSB.

SERVICE RECORD - APPROVED BY ODS

(▶) Denotes required fields

General

Name: Bird, Bobbi Waiver Type: 09

▶ Service: H2024_Supported Employment, Enclave/Work Crew (Z8598)

▶ Provider: ADDINGTON HALL_1194886788

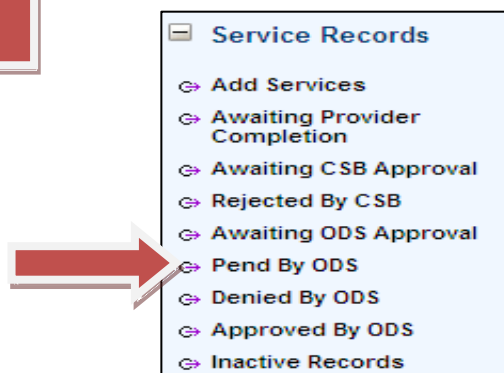

Units

Note: There are no email notifications to CSBs or providers regarding ISARs approved, pending, rejected, or denied by ODS staff. The provider/CSB must log into DELTA periodically and click on the "Approved by ODS" link to find all that have been approved. To find the pending ISARs, view "Pend by ODS" in the Service Records tab and to locate rejected or denied ISARs, view "Denied by ODS" in the Service Records tab. All ODS denied Service Requests (ISARs) must be completed again and re-entered as new requests. All ODS Rejected Service Requests must be resubmitted and are not appealable.

PENDED REQUESTS

For all "pending" ISARS it will be necessary for the CSB to look under the "Pend by ODS" view (1a) and select the individual (1b). After selecting the individual, look at the "notes" section to determine why the ODS staff pended the request (2). The CSB adds or completes the needed changes and selects "Send ODS Approval" (3) to send it back to the ODS for approval.

 Sent: Friday, October 21, 2011 2:31 PM
 To: Stierer, Cheri (DBHDS)
 Subject: Completion Request From: HAMPTON-NN CSB

Dear ADDINGTON HALL_1194886788,

A service record has been assigned to you by HAMPTON-NN CSB in the DBHDS IDOLS and is awaiting your review.
 Please log into DELTA and access the "Awaiting Provider Completion" section of the IDOLS application.

Please do not reply to this email, this is a system generated notification.

The provider should select the individual and review the Service Authorization notes in the “Details Section” (see #2 above). Additional information or attachments are then relayed to the CSB by the provider. The CSB will find the request under “Awaiting CSB Approval” (see #1b above). Once the CSB approves the changes, the service request is submitted to ODS again for final approval.

Requesting a SERVICE CHANGE in an Approved ISAR for DATE CHANGES, INCREASES OR DECREASES in units or hours (A “Re-Review”):

A “Request for Service Change” to modify units/hours (increase or decrease) and/or change the dates cannot be submitted until ODS approves the initial service authorization. These can be viewed under “Approved by ODS” (image 1 below). Scroll to the bottom of the approved record, then select “Request Service Change” (image 2 below). You can only change the units, hours, blocks, costs, or dates. If “allowable activities” need to be changed, a new ISAR should be submitted with appropriate attachments.

Done Request Service Termination Request Service Change

Correcting Errors in Submission

If a provider makes an error in the submission, a change cannot be made in the service record by the provider once it has been submitted to the SC/CM unless it is resubmitted, or the provider calls the SC/CM to make the needed change in the original request. The CSB staff can approve it and add the requested change in the notes section if necessary. Along with the note, the provider may also ask the CM to correct the error. The section of the ISAR with the error may or may not be edited (depending on the type of error) before the ISAR is sent to ODS for a re-approval/re-review.

TERMINATING A SERVICE REQUEST

Providers

Select an individual from “Approved by ODS” and then select the service that is to be terminated. Scroll to the bottom of the record and select “Request Service Termination Request” (image #1) and select “OK”(image #2). Complete the “Requested End Date” and the “Service Termination Reason” (image #3 below). Then scroll to the bottom and select “Submit Termination Request.” The CSB will get an email stating a service has been terminated by “Provider A.” It then goes to the CSB’s “Awaiting CSB Approval” view for the CSB Submitter to approve the termination request and send it to ODS, where it will await a authorization in the “Awaiting ODS Approval” view. Once approved by ODS, the service record can be viewed in “Approved by ODS.”

Status: ? Are you sure you want to request service termination?

CSB/BHAs

Select an individual from the “Approved by ODS,” “Active Waiver Enrollments,” or “Individuals by CSB” views, and then select the Service to end and the “Service Termination Request” button (image #1 above). Complete the “Requested End Date” and the “Service Termination Reason” (image #3 above). Scroll to the bottom of the record and select “Approve Service Termination Request” (image #4 below) and select OK. An email will go to the provider saying that a service termination request has been submitted by “CSB AB.” The request will then go to ODS for approval and should appear in the “Awaiting ODS Approval” view. **NOTE that this process bypasses the provider and should only be completed if the provider is no longer a provider for that particular individual. In most instances, the provider will initiate the termination of a service.**

If the ISAR has been submitted to ODS and is “Awaiting ODS Approval,” start dates, service units/hours or narratives that need to be changed by the provider, will require a submission of a “Service Change Request.” (See Service Change above).

SERVICE AUTHORIZATION REQUEST For Dates Earlier Than the Date of Submission

Service authorizations may only request a start date of the date of submission or later from *the date the SC submits it to ODS staff*. If there is a legitimate reason for an earlier date, the provider must state the reason in the “Comments/Justification” notes section and include the earlier date desired with the justification. The SC/CM must, in the approval process, indicate approval of this earlier requested date by placing a note in the same location or the notes section.

Additional Service Authorization Considerations

It is the responsibility of providers to check on submitted Service Authorizations in the available view to determine their status after the CSB approves the request. All Service Authorization Requests will continue to be entered by ODS staff into the VAMMIS system for a PA code and status code. Providers will still get the DMAS letter with the approved Service Authorization information just as occurs presently. As in the past, **PROVIDERS SHOULD NOT BEGIN SERVICES UNTIL THE DMAS LETTER WITH THE START DATES AND APPROVED SERVICE INFORMATION IN IT IS RECEIVED.**

Service Authorization Requests for Day Support, Prevocational and Supported Employment Services

Travel Time – This is for time that YOUR agency provides transportation. This is NOT to be used to indicate the amount of time the individual receives Logisticare transportation.

Requesting CD SERVICES by a SERVICES FACILITATOR:

CSB - Select the chosen Service Facilitator’s name as the provider and the requested CD services from the provider list in order to assign the CD services. Providers follow the same procedures for Service Authorization Requests.

Service Authorization Data Prior to December 2011 and Using IDOLS

Any Service Authorizations not initiated through IDOLS, particularly those completed prior to December 2011, may have incomplete information in IDOLS due to the transfer of data. Providers are **STRONGLY URGED** to check current Service Authorizations to ensure they have end dates where

appropriate and “no end dates” for those services that are ongoing and approved by ODS. These can be viewed under the column “Serv Auth End Date” in the “Approved by ODS” view. If there are needed changes, please submit these to Vivian Stevenson with clarification on what dates need to be changed under a specific PA number. These may be submitted by fax to 804-786-8626.

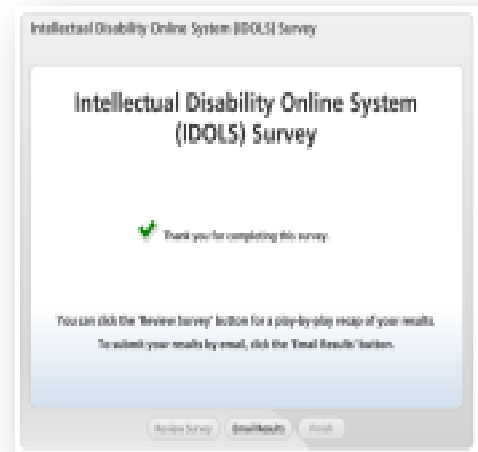

Providers should always rely on their official paper copies of approved service authorizations prior to the date you began using IDOLS. All services authorizations submitted through IDOLS will appear in the provider views. These can be printed out as hard copies if needed.

PA RECORDS APPROVED BY ODS - (38 TOTAL RECORDS)

Name	Service	Case Manager Approval Name	Case Manager Approval Date	Requested Start Date	Requested End Date	Serv Auth Start Date	Serv Auth End Date	Reason for Request

Providing Feedback Through the Online Survey

Selecting IDOLS Feedback in the IDOLS Navigation Pane provides the opportunity to offer feedback via the online survey.

Random pop-ups are also provided to provide the opportunity to take a brief survey and submit feedback by system email.

However you access the Survey, ODS appreciates your feedback in our continued efforts to improve the IDOLS system. Please be certain to select “Email Results” to submit your feedback to the DBHDS program administrators.
